

THE ESCAPE

JORDAN

ENGAGING WITH INTERACTIVE
ESCAPE ROOM CHALLENGES

INTRODUCTION

The Escape Jordan offers unique team-building experiences that engage employees in critical thinking and problem-solving through exciting escape room challenges. These activities are designed to complement workplace skills development and foster key competencies in an immersive environment. Our escape rooms combine fun with professional development content, challenging participants to use logic, teamwork, and creativity to solve mysteries and complete missions.

Encourage critical thinking and empathy as students navigate the intricate mind of a misunderstood doctor and his patients, uncovering clues and diagnosing the real story. This room focuses on psychology and ethics.

Challenge your students with the task of cracking codes and solving complex problems as they attempt to outsmart the high-security measures of the world's most secure vault. This room emphasizes strategic thinking and mathematics skills.

Promote teamwork and resourcefulness in a high-stakes scenario where students must collaborate to devise an escape plan from a maximum-security setup. This room is great for teaching about justice and civil rights.

Develop problem-solving and analytical skills as students uncover hidden motives and secrets among historical figures, learning about historical contexts and the importance of evidence-based reasoning.
